

# **Born into Care Wales: A practice and research update**

**7<sup>th</sup>, 8<sup>th</sup> or 9<sup>th</sup> November**

**9.30 am - 12.30 pm on MS Teams**

These half-day events, each hosted by one of the Local Family Justice Boards, will give an opportunity to hear the latest developments in research and practice regarding infants in the child protection and family justice system in Wales.

Drawing on new analysis by the Family Justice Data Partnership, qualitative work carried out as part of the *Born into Care* series and practice developments in Wales, the event will share:

- 1) New insights about pathways into care for babies, shedding light on the use of voluntary accommodation for babies, or care proceedings.
- 2) New guidelines for England and Wales which aim to improve practice when the State intervenes at birth.
- 3) Practice developments across Wales that aim to prevent the entry of babies to care and repeat care proceedings.
